To The Secretary to the Government of Madras,

Law (General) Department.

Fort St.George, M a d r a s.

Sir,

I have the honour to forward herewith countersigned for fresh administrative approval of Government, plans and estimate amounting to Rs.8,340/- for the above work.

'S' (T)

2. The original estimate for Rs.7,930/- for the work, was sanctioned inG.O.No. Mis.1089-W, dated the 1st August 1921, communicated with Law (General) Endorsement No.2848 C-1, dated the 6th August 1921, wherein it was proposed to provide the water supply from the well in the Training School compound. As the supply of water from this well was inadequate and the well could not be further deepened owing to the existence of a rock at the bottom. this - -

scheme has had to be abandoned and it is now proposed to link up the Jail and the school with pipe connections from the new well in the warders' lines, which is reported to have an adequate supply of water.

3. The revised scheme is a little more costly as the well in the Jail warders' lines is far off.

4. The plans and the original estimate for Rs.7,930/- are also enclosed.

I have the honour to be,

Sir,

Your most obedient servant,

Lieut-Col, I.M.S.,
Inspector-General of Prisons.

Note by the Chief Engineer, Public Works Department, No. 1658(104/B/23) dated 27-May 1924 :--

An estimate amounting to Rs. 7,930 for providing water supply to the Subsidiary Jail and Government Higher Elementary Training School for Wardens, Mangalore, was sanctioned in G.O., No. 1089-W., dated 1st August 1921. This scheme provided for pumping water from No. 4 well in the Training School compound by means of a double barrelled pump into an elevated mild steel tank placed on a masonry tower constructed at 30 feet from the well and to supply therefrom both to the Jail and the School by distribution pipes. The supply of water from this well being found inadequate and it having been found inadvisable to deepen the well owing to the existence of rock the sanctioned proposal to supply water from this well has been abandoned, and the Inspector General of Prisons now forwards a revised estimate amounting to Rs. 8340 for a scheme of water supply which provides for pumping water from the well in the Wardens lines to an elevated mild steel tank placed on a masonry tower constructed at 85 feet from this well and to supply water therefrom by gravitation to the jail and the School.

2. The estimate has been scrutinised by the Chief Engineer and it is observed that no provision has been made in the estimate for a light wooden platform with openings for ventilating the well for inspection purposes. A sum of Rs. 100 has been added to the estimate for the same.

3. With the foregoing remarks the estimate as altered by the Chief Engineer amounting to Rs. 8440 is recommended for sanction.

P.R 29/5-

M.R.C 24-5- for C.E. (B.R.P.)

C No. 2466 C From the I.G. of Prisons, No.G/340 dated 11th May 1923

Subject:- Provision of water supply to the Subjail and the Higher Elementary Training School, Mangalore, from the Jail warders' well.

A.S.

The plans and estimates amounting to Rs.8340/- for the work may be approved. Of this amount Rs.5560/ is to be allotted to Jails and Rs.2780/- to Education in the proportion of the requirements of the supply of water, namely, 2000 gallons for the subjail and 1000 gallons for the school. This work being a Minor Work funds will have to provided by the P.W.D. in consultation with Finance. It is not clear known whether there is any provision for the work in the current year's P.W. Budget, as details are not given under Minor Works grant. If there is no provision the P.W.D. will see whether any allottment can be made for the work in the Budget for 1924-25. Submitted that the file may be forwarded to the P.W.D. through Law (Education) for further action.

Note by the Chief Engr. No. 1658 W/K/[illegible]-3 27.5.[illegible]

U.S

In G.O No. 1089 W dt 1-8-21 an estimate amounting to Rs 7,930 for providing water supply to the Subsidiary Jail and Govt. Higher Training S for masters at Mangalore

The I. G of Prisons has forwarded a revised estimate amounting to Rs 8340 for a scheme of water supply for the Jail and School from a well in the Warden's lines, instead of from the original proposal to supply water a well in the Training School compound

The revised estimate has been scrutinised by the chief Engr. and his remarks thereon are contained in his note read above. As a result of the scrutiny the amount of the estimate has been increased by Rs 100, (i.e to Rs 8,440) due to the inclusion of provision for a light wooden platform with openings for ventilating the well for inspection purposes; and the estimate as thus altered is recommended by the Chief Engr for sanction.

A

A draft order approving the revised estimate is submitted. It may be sent to Law(Genl) + Law(Edn) depts for acceptance, prior to circulation to M2

Thro' Bp re-funds.
